

K-love serves me as a resident of arizona, by ministering to me when I need to be encouraged and reminded of God's love. By replacing k-love, people would not get to know God and be ministered to. The unsaved would not get reached. k-love is ministering to a lot of people who are hurting in this world. We need to hear God's word and music. K-love is a ministry and God would want his people to hear gospel music than curse word music and our children need to hear clean music. that is why k-love means a lot to my son and I. I am a single mother and listening to k-love and their prayers for me have helped me get through tough times. please do not take k-love off the air. what will our children listen to if k-love goes?
